About This Game

Turmoil offers players a visually charming, tongue-in-cheek take on the simulation genre inspired by the 19th century oil rush in North America. Hours of fun.

Oil. Black gold. Texas tea.. Honestly, not a bad little game. It may get a little repetitive at times but by the time I finished the normal Campaign, I still felt like I had accomplished something and did not regret the time spent. Would recommend it at its full price, but if it is ever on sale I would recommend not passing it up.. Had watched a bunch of letsplays on youtube and this game looked really fun. And it was. For the first two hours.

Then it got very repetitive, boring and easy.

Feels a bit like a flash game from newgrounds or something similar.

May be worth it on sale but not otherwise.
